

NIKOLA VRLENIĆ

WEB DEVELOPER

Profile

I was born and raised in Serbia. I decided to start my higher education in Slovenia so I could get my knowledge, as well as my skills, to a higher level.

I am ambitious, responsible and am always reaching for a bigger goal. As a web developer, I felt a passion for creating something more. I would like to succeed in doing so.

I am not a product of the circumstances. I am a product of my decisions.
